

General

- SportsCode Player is a view only product i.e. there is no capture, coding or editing capabilities
- Only works with SportsCode Pro or Elite files
- SportsCode Player is a fantastic tool for players and assistant coaches who do not require the full editing and capture functionality available in Pro or Elite

Search

- Quickly locate and review events, even across timelines and folders
- Up to 20 search combinations
- Perform multi leveled Boolean search routines
- Search for data from 1 game or event or across entire season or database
- Find and review events from the Code Matrix
- Set up Boolean (and, or and not) search criteria within the Matrix

Making Movies

- View Instances in multiple window sizes
- Replay video at different speeds, frame by frame, fast forward/backward
- View single instances or compile multiple instances and make a movie
- Present a movie on your computer or an external device

Analysis

- SportsCode's code matrix cleverly pulls together vital statistical information with the corresponding video
- Create a still image from any video frame
- Conduct multi leveled statistical inquiries
- Splice video files to play side by side
- Overlay any two video files
- Review frequency lists for events
- Review sequential frames within any video instance through the Instance Monitor
- Draw angles and lines on any movie frame
- Analyze multiple events and games across different periods through the combination of Timelines
