

## General

- Only works with SportsCode Pro or Elite files
- Access to SportsCode Pro coding and analysis tools

## Coding Structures

- No predefined structures of coding templates – you set the rules
- Define your own code and label buttons
- Set lead and lag times for codes or leave them as toggles
- Code in full screen
- Define keyboard hot keys
- Supports multiple input devices for multiple coders
- No limit on how many Code Input Windows you can have, making it possible to use the same program across multiple disciplines
- Edit and re-edit your templates as often as required

## Search

- Quickly locate and review events, even across timelines and folders
- Up to 20 search combinations
- Perform multi leveled Boolean search routines
- Search for data from 1 game or event or across entire season or database
- Find and review events from the Code Matrix
- Set up Boolean (and, or and not) search criteria within the Matrix

## Import

- Data lists
- Specific competition statistics

## Analysis

- Intelligent searching with up to 20 search combinations or and, or and not routines
- SportsCode Pro's code matrix cleverly pulls together vital statistical information with the corresponding video
- Create a still image from any video frame
- Conduct multi leveled statistical inquiries
- Splice video files to play side by side
- Overlay any two video files
- Create video databases
- Review frequency lists for events
- Export statistical information for further investigation in other programs
- Review sequential frames within any video instance through the Instance Monitor
- Insert text notes into instances to make effective coaches presentations
- Draw angles and lines on any movie frame
- Create meaningful drawings to highlight key plays and combinations.

## Making Movies

- View Instances in multiple window sizes
- Replay video at different speeds, frame by frame, fast forward/backward
- View single instances or compile multiple instances and make a movie
- Present a movie on your computer or an external device
- Integrate your movie into other applications such as PowerPoint
- Quickly compile movie presentations and player tapes
- Simply edit instance lengths and codes
