

SPORTSTEC
MERCURY™

Volleyball Smart.

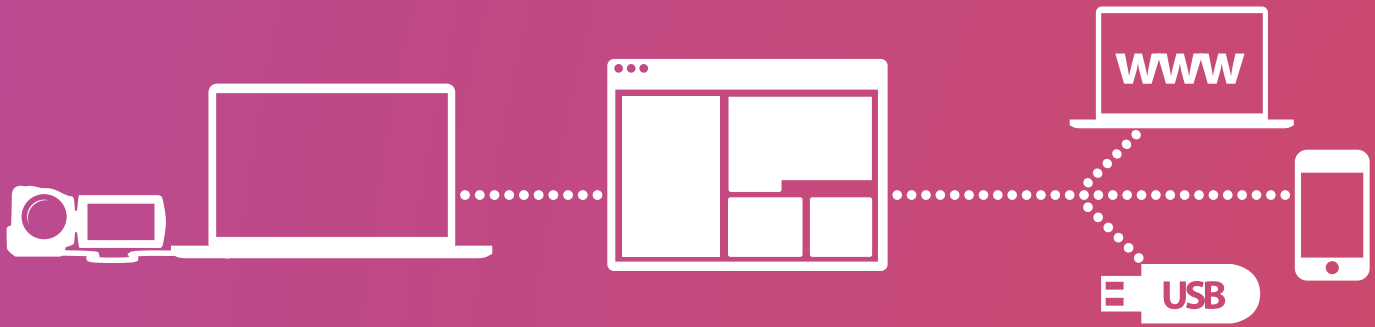

Mercury Beach is a complete match day coaching solution that is proven, reliable and stable. Easy to use, flexible and powerful; Mercury Beach helps beach volleyball teams to stay at the forefront of the competition.

Sophisticated video analysis capabilities are combined with industry leading statistical and trajectory data capture capability that helps coaching staff to make competition-winning decisions.

Game analysis. Scouting. Player Evaluation. Whatever your needs, Mercury Beach is the smart beach volleyball solution.

How Does Mercury Beach Work?

Mercury Beach has been designed to logically capture and code specific instances - based on your personal requirements. Mercury Beach's intelligent foundation produces meaningful data including statistical reports, worksheets, trajectories and Setters distribution – even in real-time during a match! Now combine this valuable information with vision of each instance and experience the true, unbeatable power of Mercury Beach.

- 1** Connect live video into your computer
- 2** Enter match data into Mercury Beach software
- 3** Share video, statistics, trajectories and reports

Developed specifically for beach volleyball coaches by one of their own, Mercury Beach has beach volleyball intelligence that makes it the smart choice.

Top 5 reasons why Mercury Beach is the Smart Choice

Volleyball Smart

Mercury Beach was developed specifically for beach volleyball by a team of beach volleyball coaches. It is its intelligent mapping of combinations, sets and systems that makes it so powerful.

Easy to Use

Designed by coaches not software developers. Mercury Beach is intuitive, relevant and easy to learn. We understand beach volleyball and what coaches need. Result - an easy to use, confidence building, flexible solution.

The Complete Solution

Statistics. Video. Trajectories. This truly powerful combination of match-day data is effortlessly collected and presented within Mercury Beach. Coupled with Mercury Beach's powerful database facilities you can review all elements of a match by player, team, skill rotation or set.

Flexible

Mercury Beach is a great tool. But we understand that nothing replaces a great coach! Mercury Beach gives you the power to determine what you code, analyze and review - we provide you with a great starting point that allows you to set your own coding and analysis parameters.

Innovative

Mercury Beach is innovative in its approach to tracking the ball, the players and the assessment of the "quality" of the play. The information collated enables you to analyse the quality of the players positioning and the effectiveness of their response on the event results.

Unbeatable Value

On it's own Mercury Beach is extremely economical. Add, (at no extra cost,) the power and reach of Mercury Beach Internet and Mercury Beach Player and it's truly unbeatable!

Mercury Beach Internet

A Browser based product that enables you to view statistics and reports live or post match.

Mercury Beach Player

Save your Mercury Beach data to a USB and allow your players access to their data - anywhere, anytime!

Sportstec Limited
Sports Software Specialists

Sportstec is a leading provider of sports technology designed to maximize individual and team performance. Our focus is on helping our clients make the winning difference, using all the benefits of leading-edge technology.
